

Envelope Professional Training In Preparation of the BPI Envelope Exam.

Profit with Home Performance Training: This low-cost training program is designed as a secondary level course for Green Jobs and energy efficiency improvements primarily in residential buildings.

This training includes both classroom sessions and hands on field experience that prepares candidates for the nationally recognized certification of BPI's Envelope Professional. Upon successfully passing the written and field performance evaluation exams candidates will be qualified to analyze and recommend the appropriate whole house remedies. Qualifying candidates may make special arrangements to take both BPI Building Analyst and Envelope Professional tests simultaneously*. The trainings consists of an overview of Health and Safety, Indoor Air Quality Assessment, Advanced Blower Door Applications, Insulation Techniques & Applications, and other topics related to improving building envelope efficiency through diagnostic testing.

2 day Classroom 2 Day Field Agenda:

- Health and Safety
- Indoor Air Quality Assessment
- Indoor Moisture Sources & Solutions
- Visual Detection
- Thermal Pressure Boundary Evaluation
- Inspection Critical Shell Transitions
- Advanced Blower Door Applications
- Air Sealing & Dense-Pack Techniques
- Prioritizing Air Sealing Work

- Insulation Professionals

BPI Testing Information:

Following completion of this course, participants will be eligible to take the BPI written/online exam. There will be a written/online exam which satisfies the first component of the BPI certification requirements. Candidates must also pass a field performance exam before receiving certification. Test dates will be selected from a choice given to students during classroom instruction.

Starting February 2012, BPI is requiring that all certification exams be video/audio recorded for submission to them.
