

Air Conditioning and Heat Pump Professional Training in preparation for the BPI AC/Heat Pump exam

This 4-day course provides participants with training on air conditioning and heat pump systems in residential buildings. This course will take place at Green Jobs Training Center's cooling lab, where students will be able to gain valuable hands on experience with HVAC equipment and tools as well as classroom training. Students will learn about refrigerant properties, the refrigeration cycle, how to evaluate refrigerant charge (superheat and sub-cooling methods), air flow testing, and diagnostics. This course has prerequisites for students seeking BPI's Air Conditioning and Heat Pump Professional certification. Training will include review of some Building Analyst concepts, but this is not a Building Analyst preparatory course.

Our instructor has 33 years as an HVAC professional.

Class Location: 102-10 159th Rd, 2nd floor, Howard Beach NY 11414

Class Fee: Training \$950. Written Exam \$250. Field Exam \$500

Time: All class are 8:00am to 4:00 pm

Prerequisites: Students must have the EPA 40 CFR Section 608 Type II or Universal certification.

Class Dates: May 7-10, 2018 Oct 15-18, 2018

- HERS Rater
- HVAC Professional
- Insulation Professionals

BPI Testing Information:

Following completion of this course, participants will be eligible to take the BPI written/online and field exam. The costs of the exams are not included in the instruction fee. Candidates must pass both written and field exams in order to become certified. Test dates will be selected from a choice given to students during classroom instruction. BPI now ANSI certified requires that all certification exams be video/audio recorded and kept on file by the test center.
