Energy Auditor

Using JTA's This 5-day course provides experienced auditors with classroom, lab, and field-based training in advanced energy auditing knowledge, skills, and abilities, including: advanced building diagnostics, application of ASHRAE 62.2 ventilation standards. Evaluate the energy efficiency, health, and safety of a home, and use diagnostic equipment to identify areas for energy savings. Use modeling software to produce an audit report and develop a prioritized scope of work for the customer. [Earning the EA automatically earns BA certification as well. Candidate receives two certifications.] Use diagnostic equipment to conduct inspections, and develop reports that specify corrective actions to achieve optimal whole house home performance.

Students are strongly encouraged to discuss their own work experiences.

At the end of this course, students are provided with additional resources to prepare for BPI Certification as a Home Energy Professional Quality Control Inspector. Students may schedule their written and field certification tests at any time after the course has concluded.

Class Location: 102-10 159th Rd, 2nd floor, Howard Beach NY 11414

Class Fee: \$1,200.00

Time: All class are 8:00am to 4:00 pm

Class Dates: Weekday: () Aug 13-17, 2018 or () Nov 12-16, 2018
