

GREEN JOBS TRAINING CENTER

PRESENTS

OSHA Training & Certification

The OSHA 10 Hour Training Course consists of these subjects:

- Introduction to OSHA
- Material Handling
- Tools - Hand and Power
- Scaffolds
- Stairways and Ladders
- Excavations
- Electrical
- Personal Protective Equipment
- Fall Protection
- Cranes

The OSHA 10 Hour Construction course consists of:

10 Lessons, 10 Quizzes, Final Exam

Full Description:

This course gives an introduction to OSHA, the standards, general safety and health provisions, the general duty clause and requirements for competent persons. The course then continues with specific emphasis on the Electrical standard and Fall Protection. Topics that may also be covered as needed include Personal Protective Equipment, Tools-Hand and Power, Scaffolds, Cranes & Conveyors, Excavations, Stairways and Ladders. Upon successful completion of the course the student receives a 10 hour Construction Safety Training card which does not expire. Refresher training is recommended to maintain awareness of changes in OSHA regulations and basic competencies.

NYC requires that all construction superintendents attend the 10 hour Construction Safety Course. NYS now require that all site personnel attend the OSHA 10 hr for all State funded projects in excess of \$250,000.00.
