## OSHA Training & Certification

**The OSHA 10/30 Hour Training Course consists of these subjects:**

- Introduction to OSHA
- Material Handling
- Tools - Hand and Power
- Scaffolds
- Stairways and Ladders
- Excavations
- Electrical
- Personal Protective Equipment
- Fall Protection
- Cranes

**The OSHA Construction course consists of:**

***10 Hours Lessons/30 Hours Lessons, Final Exam***

Full Description:

This course gives an introduction to OSHA, the standards, general safety and health provisions, the general duty clause and requirements for competent persons. The course then continues with specific emphasis on the Electrical standard and Fall Protection. Topics that may also be covered as needed include Personal Protective Equipment, Tools-Hand and Power, Scaffolds, Cranes & Conveyors, Excavations, Stairways and Ladders. Upon successful completion of the course the student receives a Construction Safety Training card. Refresher training is recommended to maintain awareness of changes in OSHA regulations and basic competencies.

**NYC requires that all construction superintendents attend the Construction Safety Course. NYS now require that all site personnel attend the OSHA training for all State funded projects in excess of \$250,000.00.**
