TRAINING CLASS
(EEBOP)

BPI CERTIFICATION EXAMS

GENERAL DESCRIPTION

MFBO is a five day class which is meant to introduce Building Operators to basic Building Science and how to apply these basic principles to the efficient operation of their buildings. It particularly concentrates on how to efficiently run a buildings heating equipment and how to maintain it for the full length of its design life. It applies to both types of Hydronic Heating: Steam Heating and Hot Water Heating. The course also covers basic maintenance information and how to conduct the different types of maintenance, as well as how to maintain proper records. Additional topics can include: Ventilation, Air Sealing and Insulation, Building Envelope Issues, Indoor Air Quality, Energy Efficient Lighting, Water Conservation, and Health and Safety Issues.

Class Location: Green Jobs Training Center Lab
102-10 159 Rd 2nd fl Howard Beach NY 11414

Class Fee: \$1450.00

Time: All class are 9:00am to 5:00 pm

Class Dates: Weekday: () April 13-17, 2020
